

Permit Number _____

**WATER SOFTNER INSTALLATION CERTIFICATE
AND
INSTALLATION REQUIREMENTS**

1. Only permitted in residential dwellings units.
2. Must Discharge to the waste disposal system in an approved manner (1" air gap required).
3. Appliance must have an efficiency rating of no less than 4000 grains of hardness removed per one pound of salt use.
4. The installation of the appliance is accompanied by the simultaneous installation of conservation devices.
 - a. faucet flow restrictors
 - b. shower flow restrictors
 - c. toilet reservoir dams or low flow toilets (1.6 gallon)
5. The appliance is regenerated by one of the following methods:
 - a. a clock control
 - b. demand control
 - c. manual-initiated control
 - d. A piping system installed so that untreated (unsoftened or unconditioned) supply water is carried to hose bibs and sill cocks that serve water to the outside of the house, except that bypass valves may be installed on homes with slab foundations constructed prior to the date of installation; or condominiums constructed prior to the date of installation; or otherwise where a piping system is physically inhibited.

The salt efficiency rating of the water softening or conditioning appliance and the installation of water-saving devices shall be certified in accordance with Section 116795. The certification required by this article shall be provided by the new user of the appliance and shall be completed by a contractor having a valid Class C-55 water conditioning contractor's license or Class C-36 plumbing contractor's license and filed with the local agency responsible for issuing plumbing permits.

The certification form shall contain all of the following information:

(a) Name and address of homeowner.

(b) Manufacturer of the water softening or conditioning appliance, model number of the appliance, pounds of salt used per regeneration, and salt efficiency rating at the time of certification. _____, _____,

(c) Manufacturer of the water-saving devices installed, model number, and number installed.

(d) Name, address, and the specialty contractor's license number of the C-55 and C-36 licensee making the certification.

I as the owner or representative of _____, state license number _____
