

Iron Horse Trail Pleasanton CIP 047020

The City of Pleasanton, East Bay Regional Park District (EBRPD), Alameda County Transportation Improvement Authority (ACTIA), and Ponderosa Homes have teamed up to install approximately one mile of the Iron Horse Trail, the first segment in the City, as well as Alameda County.

The northern portion of this Class A paved trail segment has been

completed, and runs from Santa Rita Road to Mohr Avenue.

Ponderosa Homes (as a condition of its nearby residential development) has installed the southern portion of the segment, and is nearing completion of related items. Once Ponderosa Homes has completed its remaining items, an official opening for the trail will be held.

All four partners contributed to project funding, which includes a \$450,000 ACTIA grant.

For more information about ACTIA and its projects, please visit <http://www.acta2002.com/>.

Future segments of the Iron Horse Trail through Pleasanton are being planned. This page will be updated with new information as it occurs.
